

Commonly Asked Interview Questions

Once you've identified the transferable skills and qualities you gained through your exchange experience, practice answering mock interview questions using the **"STAR"** approach (Situation, Task, Actions, and Results). This will help you come up with specific examples to demonstrate how your skills and experiences will translate into the professional world.

Situation: *Describe the backstory to a challenge you have overcome.*

Task: *What was your exact role or responsibility in this situation? What was your end goal?*

Action: *Explain the sequence of actions and thought process you used to deal with this challenge. Why did you choose this method?*

Results: *Summarize the tangible results and impact of your work and decisions. How were things better off because of your input? Use a high level of detail and concrete evidence to show the full impact of your initiatives.*

During interviews, recruiters are looking for concise but descriptive responses. By developing some **"STAR"** stories in advance of an interview, you have the opportunity to highlight the transferable skills gained through your exchange experience.
